

EMPLOYMENT LAWSCENE ALERT: REVIEW YOUR COMPANY'S "TOP-HAT FILING" STATUS NOW TO AVOID INCREASED FORM 5500 PENALTIES

Companies that have entered into arrangements (1) to pay deferred compensation to key employees (including owners), or (2) to provide employee benefits specifically for apprentices or trainees should immediately determine whether a "top-hat filing" is required, and, if so, whether it has been properly filed with the Department of Labor. Two very recent legal developments—increased penalties and a new filing search tool—indicate that enforcement activity on top-hat filing compliance is increasing. Penalties for not filing can be extremely costly, and the penalties have been increased, effective January 15, 2020. Fortunately, a low-cost correction option is available for corrections made prior to a DOL assessment of penalties.

Top-Hat Overview

A top-hat filing is a short informational submission to the DOL that describes the company's contact information and the nature of the sponsored plan. It is legally required to be submitted with respect to any compensation arrangement for key management and owner employees (or employee benefit plans provided only to apprentices or trainees) that constitutes a top-hat plan. So named in apparent reference to gentility as evoked by Lincoln-era fashion standards, a top-hat plan is an agreement or plan maintained by an employer primarily for the purpose of providing deferred compensation to a select group of key employees, apprentices, or trainees.

The term "select group of management or highly compensated employees" is not clearly defined, but must, instead, be determined in the context of the particular facts and circumstances that apply to the employer. Neither the IRS definition of "highly-compensated employee" or of "key employee" applies in determining whether a compensation arrangement is a top-hat plan. Instead, relevant factors include the duties and responsibilities of the employee and the level of the employee's compensation as compared to the compensation of the employer's work force, in general.

Top-Hat Filing – Required within 120 Days of Plan Effective Date

In general, all employer-provided benefits are subject to ERISA's requirements, unless an exception applies. In the case of top-hat payment arrangements, DOL guidance has expressed that "certain individuals, by virtue of their position or compensation level, have the ability to affect or substantially influence, through negotiation or otherwise, the design and operation of their deferred compensation plan, taking into consideration any risks attendant thereto, and therefore would not need [all of] the substantive rights and protections of" ERISA. The DOL also permits this lower-protection status for arrangements that provide employee benefits (including health benefits) only to apprentices or trainees, or both.

In light of the reduced need for ERISA protections for these plans, the DOL authorizes an exemption from the otherwise-applicable ERISA mandates regarding participation, vesting, funding, and fiduciary rules. Importantly, an additional exemption from ERISA's reporting and disclosure rules is also available, but *only if* a "top-hat filing" is submitted to the DOL within 120 days of the initial effective date of such plan.

Because ERISA's reporting and disclosure rules include the requirement to file an annual Form 5500 to the DOL, this annual Form 5500 filing requirement continues to apply to a top-hat plan unless a top-hat filing has been timely submitted. Alternately, an initial failure to submit a top-hat filing can generally be corrected, retroactively, for a relatively small compliance fee.

Form 5500 Penalties at an All-Time High

An employer that fails to timely file a Form 5500 may be subject to a DOL penalty of \$2,233 per day (as adjusted annually for inflation). This new penalty amount of \$2,233 per day is effective January 15, 2020. (For the prior year, the penalty amount had been \$2,194 per day). This is not a typographical error. The law applies these penalty amounts *per day* for each day past the required filing date(s). The penalties are cumulative and become exponentially large for failures stretching over multiple years. While an aggregate penalty assessment could likely be negotiated downward by experienced ERISA legal counsel, an assessed DOL penalty for a late Form 5500 is guaranteed to be large.

The IRS imposes separate penalties for the failure to timely file a Form 5500, unless a showing of reasonable cause is made. Until recently, the IRS penalty was \$25 for each day of the failure up to a maximum penalty of \$15,000 per year. Under the Setting Every Community Up for Retirement Enhancement (SECURE Act) enacted on December 20, 2019, however, the IRS penalties for a late Form 5500 have increased tenfold to \$250 per day, up to an annual maximum of \$150,000. These increased IRS penalties apply for any Form 5500 due to be filed on and after January 1, 2020.

New DOL Top-Hat Filing Search Tool

Earlier this week, the DOL published a new online search tool to enable the public to search for top-hat filings. The search tool is available [here](#). Results can be printed or downloaded to Excel.

Prior to the DOL making the search tool available, generally only benefits professionals and practitioners ever searched for top-hat filings, and then only via a website maintained by a private company that regularly obtained the information from the DOL through Freedom of Information Act Requests.

The issuance of the public DOL search tool is a positive development that will assist employers in confirming their top-hat filing compliance status. Of course, this increased access likely also signals increased DOL interest in enforcing late Form 5500 penalties for those employers that have not timely filed a top-hat statement. In light of the ease of searching, it will now be harder for employers to reasonably contend that they were unaware that a top-hat filing had not been submitted. Similarly, it is conceivable that plaintiffs' attorneys or disgruntled employees could use the tool themselves to determine whether a company is likely out of compliance with the top-hat filing, and therefore, the Form 5500 filing, rules. If this knowledge were used to inform the DOL, which, in turn, could trigger a penalty assessment, the penalty amounts could be devastating.

Correction Option

If you determine or suspect that your company has inadvertently failed to submit a top-hat filing for a covered top-hat plan, take steps right away to amend this oversight by submitting a delinquent filer voluntary compliance application. If you catch the error before the DOL has assessed a penalty, then you can retroactively correct the issue for a fee of only \$750 for a single year (or a maximum of \$1,500 for multiple years). The IRS generally accepts this same correction method as sufficient to avoid the separate IRS Form 5500 penalties, as well. Indeed, this DOL correction method often works to abate the IRS penalties after these have already been assessed.

Conclusion

It is common for companies that implement deferred compensation arrangements to consider the tax implications of such arrangement, including, for example, the application of Internal Revenue Code Section 409A. Equally important, however, is consideration of the other federal law that may govern such arrangements—ERISA. It is simply not true that all compensation agreements for key employees are exempt from ERISA's requirements. Failure to anticipate this reality—and to submit a top-hat filing when required—exposes the employer to significant Form 5500 penalties.

To avoid these penalties, check on your company's top-hat filing compliance now. The attorneys of the OCDHL Employment Law Team can assist you with assessing whether your company's key employee compensation agreements constitute top-hat plans within the meaning of ERISA, or whether an exemption may apply. If you maintain a top-hat plan for which no top-hat filing was ever submitted, we can assist in correcting the inadvertently missed prior filings, thereby potentially eliminating the existing exposure to thousands of dollars.
